VLADIVOSTOK HARBOR IS TO BE BLOCKADED

THE GOVERNOR IS PREPARING TWO MESSAGES

One Upon Matters of General Interest and the Other to Accompany His Territorial Financial Estimates.

Governor Carter will send two messages to the legislature one dealing with general subjects of interest to the Territory, and the other accompanying his financial estimates of the needs of the various departments of the government.

"The law," said the Governor yesterday, "requires me to send a message to the legislature at the opening of the session, reviewing the condition of public affairs, and making statements of the general condition of the Territory. That message, dealing in a large way ond one very soon upon the needs of which plan has by no means been with subjects of general interest, such as taxation, the liquor question, and other matters in which the people and the law makers are interested, I am now preparing at home, dictating it during the morning hours and hammering it into shape. This message will treat in a large way upon matters of public interest.

"My estimates of the needs of the various departments will be submitted with a second message, which I am getting in shape in my office here in the afternoon. This will accompany the estimates furnished by the heads of the several departments of the government. This message is required by the provisions of the Organic United States government pays the Act, and possibly it should be enough.

"I expect to have the general message ready in a short timeand will at once put it in the hands of the printer. Then I will five. We sperally camp at Kapiohave more time to work on the other, and get the figures into lani Park. But there is need for some

The Governor has almost daily sessions with the heads of the just how much it would take, in a ed, before the waterfront scandal departments, who are all pretty busy getting their reports and estimates ready to submit to him. "I am picking up odds and ends," said Land Commissioner Pratt yesterday, "getting my estimates for the Governor ready. That is to say, I can hardly be said to be getting my report ready, because I am not far enough advanced on it yet, but I am driving things that way. I want to get the affairs of the office in shape, too, to get away on business to the other islands next week, or the week after. I have to make these trips ever so often, you know."

Attorney General Andrews submitted his estimates to the Governor some days ago, and Superintendent of Public Works Holloway is in labor with his. He will not talk about it at all. The other departments have matters pretty well forward so that Governor Carter will probably have all the figures he wants as fast as he gets ready to use them.

BIG ISLAND FIREBUG CONVICTED ON TRIAL

Jury in Judge Matthewman's Court at Kailua Returns Verdict of Guilty Against Kaina Anton.

(Wireless Special to Advertiser.)

KAILUA, Kona, Hawaii, Jan. 25 .- Kaina Anton the half Spaniard who set fire to the trash house on Naalehu Plantation on the 14th of August last, was today found guilty of arson by a jury in Judge Matthewman's court.

This is the first conviction for this crime that has been made afternoon of the 3rd inst. in the Territory since 1893, and the credit for working up the case against Kaina Anton belongs altogether to Chester A. Doyle, now in the employ of the Attorney General's office.

The facts of the case, as shown on the trial, were about as fol-

The appointment of Mr. Watkins is a move in the interest of the government's plan to clean up the waterfront, abandoned. In fact, it is proposed by those in authority, both on the Territorial and Federal side, to make Honolulu a port in which sailors can be absolutely assured of fair treatment There is a need of money for target and in which ship captains will be able to get crews without resort to crimps and without the terrible necessity for expenditures, such as taking men from shanghaing men who have never smell. one place to another, and taking them ed salt water.
